Who are we?

- ✓ CareTutor is a social care training provider delivering the following:
 - Pathway our video-based eLearning platform with over 100 video-based courses
 - Leadership training programme – SfC designed, instructor led, fully funded, delivered by webinar
 - TeamTalk our team learning toolkit
- ✓ Courses are Peer reviewed by organisations such as the Social Care Institute of Excellence.
- ✓ We are a Quality Assured Care Learning Service
- ✓ Great for reflective team learning, inductions, refreshers, Care Certificate and more
- ✓ Feature-Packed Learning Management System – Track Your Team Learning Progress

The Problem Managers Face

Training is often completed, but the learning can fade quickly.

Managers still need a simple way to:

- ✓ Keep key topics alive.
- ✓ Evidence learning sessions.
- ✓ Involve staff in reflection.
- ✓ Follow up on incidents, audits and local priorities.

Where TeamTalk Fits

TeamTalk is CareTutor's reflective learning toolkit. It helps managers run short, structured learning discussions using:

- ✓ Short videos
- ✓ Session Guides
- ✓ Custom Sessions
- ✓ Discussion questions
- ✓ Key learning points
- ✓ A simple session log

What a TeamTalk Session Looks Like

- ✓ A typical session takes around 12 to 15 minutes.
- ✓ Staff watch a short video, discuss the scenario, reflect on good practice and agree one practical takeaway.
- ✓ The Facilitator then records attendance, key discussion points, learning and actions.

Why Managers Like It

TeamTalk helps managers make better use of time they already have.

It can be used in:

Team meetings.

Staff briefings.

Supervision themes.

Incident follow-up.

Audit action follow-up.

Refresher learning.

Custom Sessions

TeamTalk also allows services to create their own Custom Sessions.

This can support local learning such as:

- ✓ Policy updates.
- ✓ Fire drills.
- ✓ Equipment demonstrations.
- ✓ External training videos.
- ✓ Audit findings.
- ✓ Incident learning.

This means services can use TeamTalk for both CareTutor sessions and their own local priorities.

The Value for Providers

TeamTalk helps move learning beyond completion records.
It gives managers a simple way to evidence:

Staff engagement.

Reflective discussion.

Learning linked
to practice.

Agreed actions.

Ongoing
improvement.

It does not replace
eLearning,
supervision or
competency
checks. It
strengthens the
link between them.

Try TeamTalk with your managers and teams.

Start with one topic, one short session and one useful discussion.

TeamTalk is designed to be simple, practical and easy to fit around busy care services.

TeamTalk 45-Day Free-Trial

- ✓ Strong services need more than compliance.
- ✓ They need learning that is revisited, discussed and applied.
- ✓ TeamTalk helps make reflective team learning easier to run in practice.
- ✓ Leadership development helps managers lead culture more confidently.
- ✓ Together, they offer a practical route from compliance to culture.
